

Grading process

To obtain your final grade **you must fill in a form by logging into www.maker.si/ip and submit requested materials** as follows:

- final PPT/PDF presentations entitled as *ProjectName.ppt/.pdf*
- project documentation (all materials generated through the semester – e.g. homeworks)
- video of up to 1 min duration (**720p, MPEG-2 encoding, size below 50 MB**) that highlights the project goals and presents the features, design, function and usage of your solution (*by submitting the video you hereby agree that the video can be made publically available online*)

All files should be submitted as URL address (use YouTube for video and GoogleDrive, Dropbox, or similar for other files).

Final grade will consist of three parts:

1. **Project grade** (quality of solution, goals achieved, grade obtained by a consensus of advisors)
2. **Mentor's grade** (meeting attendance, overall cooperation, homework grades)
3. **Presentation grade** (quality of PPT/PDF presentation, quality of the video)

Postopek ocenjevanja

Za končno oceno predmeta **morate izpolniti podatke v spletnem obrazcu na strani www.maker.si/ip**, pri čemer morate posredovati tudi naslednja gradiva:

- končna PPT/PDF predstavitev z naslovom datoteke *ProjectName.ppt/.pdf*
- projektna dokumentacija (vso gradivo, ki ste ga ustvarili tekom semestra – npr. domače naloge)
- video v dolžini največ 1 minute (**720p, MPEG-2 kodiranje, velikost pod 50 MB**), ki naj **povzema cilje projekta** in predstavi lastnosti, dizajn, funkcijo in uporabo vaše rešitve (*s tem ko pošljete video se tudi strinjate, da se video lahko javno objavi na spletu*)

Vse datoteke lahko pošljete kot povezave URL (uporabite YouTube za videe in GoogleDrive, Dropbox, ali podobno za druge datoteke).

Končna ocena bo sestavljena iz treh delov:

1. **Ocena projekta** (kakovost rešitve, doseženi cilji, ocena bo skupno mnenje mentorjev)
2. **Ocena mentorja** (udeleževanje sestankov, sodelovanje, ocene domačih nalog)
3. **Ocena predstavitve** (kakovost PPT/PDF predstavitev, kakovost video predstavitve)
